Dear All,

At 22:50 on 4/26/2018, Dispatch Center received a call from NRCC. NRCC told dispatcher that at 22:29 today, they got a call from [REDACTED] who was from [REDACTED]. He claimed that his family ingested about 100ml Glyphosate IPA salt 41% SL (开路生) by mistake just now. The family quickly sent him to a nearby hospital for treatment and the patient was treated with gastric lavage. At present, the consciousness of the patient is sober. There are no adverse symptoms so far. The caller asked NRCC for help, and NRCC answered the caller according to the MSDS.
